OPENINGS/GREETINGS

Dear Forester Colleagues and Orienteering Sportsman Friends!

As the host of the 22nd European Foresters' Orienteering Championships I am delighted to welcome you.

It's a great honor that after 1998 and 2004 Hungary could host this long standing traditional event again. After Bugac and Eger/Szilvásvárad in cooperation with the Hungarian Forestry Association and the Orienteering-Pécs Foundation we try to do our best to organise a high-standard and memorable event in Pécs.

During the six days 350 competitors from 15 countries will line up to match their preparedness and endurance. But these six days are not only about competition. EFOL events are always special for us foresters to leave the everyday's treadmill; to meet friends not seen for long and to see our beloved forests with a different eye.

I can assure you that also this year professional and cultural programs will be held in beautiful natural environment and in attentive and friendly atmosphere. The preparedness, dedication and hospitality of my organizer colleagues is a guarantee for this event, which will have an effect on the international cooperation, personal and professional relationships of the forestry specialties.

In this spirit, I would like to wish you successful, fair and good competitions! I am confident that this EFOL event will generate good impressions and we could welcome you as guest at Mecsekerdő in the future again.

With forester's friendship,

László Keszi
CEO, Mecsekerdő Forestry Co. Ltd.

Dear participants! Dear Colleagues!

In recent years the number of tourists, hikers and forest visitors has increased significantly in Hungary. More and more of them are coming specifically for sports in the woods. Runners, trail runners, cyclists, horse riders. "The forest is the largest stadium" – this is the Hungarian foresters' message for all of you.

Welcome to you now in this Hungarian stadium! I hope beside the excitement of sport and the competition you will also have the time and energy to get to know the region's forests. In addition to natural assets you should get to know the forest management practices, which preserve these values. Over the last century Hungary doubled its total forested area, and we are confident that this work continues in the future.

Our professional community, the Hungarian Forestry Association will celebrate its 150th anniversary next year. During this long period we have witnessed a lot of good initiatives. The sports events organized for forester professionals belong to these good initiatives which represent long-term values. EFOL and EFNS races develop friendships and professional relationships as well. We are pleased that after many years we are again hosting an important event of the European foresters' community.

Welcome to Hungary! I wish good competitions for all of you!

Péter Zambó

President, Hungarian Forestry Association

Dear forest owners, workers for forestry organisations, subcontractors, individuals with a forest education, family members,

During the 22 year history of EFOL we have the privilege to be the first ones to visit the forests in a country hosting the event already for the third time. This fact and the entries from over 350 competitors from 15 countries is an evidence of the strong EFOL tradition. We nevertheless have a challenge to increase the number of participants and to expand our geographic area.

I can say with confidence that we shall once again derive satisfaction from the well-tended forests around the scenic Orfű in the Mecsek mountains, benefit from the presence of highly competent forestry professionals, enjoy social gatherings, friendly people and excellent food, and, last but not the least, compete in a quality orienteering event in all EFOL races: be it sprint or middle distance, individual or a relay race.

I thank all the organisers of the 22nd EFOL and wish the entire EFOL family to fulfil their expectations for the week. Enjoy yourselves! Yours sincerely,

Mārtiņš Gaigals,
President, EFOL IC

CLIMATE

In August in Pécs (200 m above sea level), you can expect temperatures from 20° to 34° Celsius during the day. In the Mecsek, the climate can be the same at this time of year. Long periods of rain are unlikely but quick showers may occur.

For more information about weather, please look at: www.weather-forecast.com or www.cnn.com or www.met.hu or www.idokep.hu

LET'S MAKE ORIENTEERING, THE "GREEN SPORT", REALLY GREEN

This competition is part of a project that aims to reduce the ecological footprint of orienteering in Hungary. We encourage you to choose environmentally friendly means of transportation when coming to Pécs/Orfű. To reduce waste, you will receive a reusable cup before the first day of the competition. Before each race please put it into the designated cup holders in the refreshment area and use them after finishing the course. No disposable cups will be available. Waste generated elsewhere will be segregated. Please put plastics, organic waste, metal, paper and other waste into the appropriate containers. Waste from the buffet will be segregated as well - we ask you to pay attention to the rules. To further improve environmental practice, you are welcome to enjoy meatless dishes at the buffet. Please visit the green tent for information on the environmental project and its broader background.

Orienteering in Mecsek

START BIBS

Every competitor will be issued with a number bib which must be worn on the chest for each competition. Information on bibs will consist of the competitor's name, SI-card number, country, category, and start times.

CLOTHES AND SHOES

Sprint, clothing: Shorts and running shirts are recommended. Dobbled spikes and spike shoes are not allowed to be used.

Middle Distance and relay, clothing: Regular orienteering clothing with long trousers and leg protection is recommended.

Shoe: dobbled spikes and spiked shoes are allowed to be used.

TERRAINS

The forest terrains are natural reserve areas. Please take extra care to keep the competition areas clean.

SPRINT

The race takes place within the old city walls of Pécs. This is typical urban terrain, with some moderate climbs. The competition terrain is the historical, old part of the city with public parks, where city life reflects a typical weekend with open-air restaurants and cafés. Around the Finish area, strong pedestrian traffic is likely to occur. The courses reach inner courtyards, underpasses and crossings. We prepare a competition with a special atmosphere, offering a quick sight-seeing.

MIDDLE

One of the most famous and definitely the most beautiful terrain of the Mecsek Mountains awaits the competitors of the Middle Distance competition. The terrain is located between 250 m and 400 m above sea level. Many depressions (dolinas) – some of which may be 25 m deep characterize the terrain. The mixed beech and oak forests are of high runnability. A dense path and forestry road network among the depressions can assist navigation. We would like to give the competitors a real taste of orienteering in the Mecsek Mountains.

RELAY

The competition terrain is a hilly area at a height of 200-380m, typical of the centre part of the Mecsek Mountains. The Finish Area is located at the Forestry centre and Mecsextrém Adventure Park. Countless gullies, valley systems of various size and several depressions render the terrain versatile thus presenting a challenge for navigation. The vegetation also reflects the diverse nature of the terrain with areas of recent fellings, elderly beech forests, various deciduous forests, with some undergrowth. The versatile terrain has a dense path and road network.

Hilltops of Mecsek

MAPS

The maps have been drawn according to IOF map norms. Maps are digitally printed.

Sprint: 1:4.000 / 2.5m (ISSOM 2007). Surveyed in 2011, revised in 2015.

Middle Distance and Relay: 1:10.000 / 5m (ISOM 2000). Surveyed in 2011, revised in 2015.

All competition maps are printed on pretex paper, thus they are unglassy and fully waterproof. Protective plastic bags for the maps will be available at every start area.

Maximum map dimensions are 315 x 210mm.

Control descriptions are printed on the front side of the maps and loose control description (not water resistant) will also be available in the start lanes.

All competition maps will be collected at the finish. After the last start of each competition, the maps will be available at the Information Desk in the Assembly Area. Each group leader should bring their Accreditation card to collect them.

SPECIAL MAP FEATURES

Special map features for the sprint race

(black) X, O - playground elements (swings, slides, table, soccer gate)

(black) • - natural rocks, concrete elements or drain covers

Special map features for forest races

(black) X - well location or concrete columns

(black) V - dangerous rocky pit

(green) X - rootstock

(green) O - single tree

(brown) X - broken ground or charcoal burning place

On the individual competition days, the last control is an artificial well, marked on the map by a black cross.

CONTROLS

Each control is equipped with a control flag, electronic punching stations (SPORTident boxes), and a pin punch (for use in the rare case that neither electronic unit works).

TIME KEEPING SYSTEM

During the event, the SPORTident time-keeping system will be used. In case the SI box does not beep or flash, competitors must punch on the map with the traditional pin punches mounted on all controls. The team leaders have to return the rented SI-card to the Information Desk after the last race. The fee to be paid after a lost SI card is 40EUR.

ON-LINE RESULTS IN THE FINISH AREA

We will be operating an experimental on-line results service in the finish area. A free WIFI network will be accessible with any wireless capable device. You only need to have a WEB browser on it to use the service. The network will not be connected to the internet, only to our local network for the live results.

Technical parameters:

SSID: result (open network, does not need any password)

Web address: type <http://result.hu> into the address bar of your browser, where you will find the simplified WEB page of the event. Click on the on-line results link, choose your category and set an update interval of your choice (30 sec, 1 min, 2 min, or 5 min). You cannot use the internet with this method. Should you have any questions, please contact the organizers.

REFRESHMENTS

After every competition, water will be available at the finish. Please do not forget to use your “green glass”. Before each competition, please put it into the designated cup holders in the refreshment area and use them after finishing the course.

FIRST AID

There will be medical first aid facilities at the finish of all the races. Occurrence of ticks is likely in the forested areas. As they may carry bacteria, please pay attention to the prevention, scrutiny of bites and removal of ticks.

TOILETS, SHOWERS

There will be toilets and showers in every Assembly Area. Please use “green” shower gels.

OPENING CEREMONY AND PRIZE GIVING CEREMONY

The Opening Ceremony and Prize Giving Ceremony will take place on Wednesday, 12 August at the Széchenyi Square in Pécs just after the Sprint Competition. Competitors are invited to join their fellow countrymen and march behind their flag. We hope that you will all join us in the Opening Ceremony of the EFOL. We ask all nations to delegate one flag-bearer for the Opening Ceremony at Jókai Square!

Competitors should meet at the Jókai Square meeting point at 16:30 pm. The parade will start at 17.00 pm and the Opening Ceremony and the Sprint Prize Giving will end at around 18:00 pm.

Welcome speech will be given by:

dr. Márton Örs Bitay, *Ministry of Agriculture, Minister of State for State-owned Land*

Péter Zambó, *Chairman of Hungarian Forestry Association;*

László Keszi, *CEO of Mecsekerdő Forestry Co. Ltd. in the name of the organizers*

dr. Zsolt Páva, *Major of Pécs City County*

Martins Gaiglas, *Chairman of EFOL*

After the Opening Ceremony the participants are welcome to join the dance of the Mecsek Folk Dance Ensemble.

14. AUGUST 2015. EXCURSIONS

GENERAL INFORMATION

The buses depart from the Event Centre at 8.00 a.m., the expected return is at about 5-6 p.m. Apart from the professional programmes, during the excursions you will see some interesting tourist spectacle of this area. The professional programmes will be lead by the foresters of Mecsekerdő Co. Ltd. and they will offer lunch in the forest as well.

Please dress suitable for the weather and the occasion.

EXCURSION A: ZSELIC

The trip takes place at the Zselic hills, west of the Mecsek Mountains. During the forestry programmes, visitors will see the deer farm of Bőszénfa, its collection of trophies and they can also taste the local products of the farm.

Main topics of the excursion:

From clear-cut system to single-tree selection through transformation

The management of silver lime (*Tilia argentea*)

The importance and management of the sessile oak (*Quercus petraea*)

Natural regeneration methods of the sessile oak (*Quercus petraea*)

A ride on a former forest railroad will follow, and the excursion ends with the visit of one of the most important historical places in Hungarian history. The excursion will take place at the Forestry of Szigetvár, will be guided by Ferenc Sajgó, manager of the Forestry, and Attila Mohácsi, forestry engineer.

13. AUGUST 2015. EXCURSIONS

EXCURSION B: WEST-MECSEK

This program will involve a trip to the PannonPower biomass energy power plant near Pécs and to the centre of Pécs where early-Christian burial sites are located from the 4th century. In the afternoon the group will arrive for lunch to the Sás-valley and will visit the forestry school and the forestry program.

The main topic of the excursion will be a continuous cover forestry experiment which takes place in a beech-hornbeam-oak stand. The excursion will take place at the Forestry of Árpádtető with the guidance of János Szőnyi, manager of the Forestry and Miklós Kincses, forestry engineer at the local Forestry.

Policy of Pannonpower: The use of safety equipment – helmet, visibility vest – provided by Pannonpower is mandatory. Visitors should wear appropriate clothes. Regardless of the weather, the wear of closed, flat shoes and trousers is highly recommended. In the power plant, visitors are not allowed to take any photos or record videos.

EXCURSION C: EAST-MECSEK

This group will visit the former Zsolnay factory, the historically famous porcelain manufactory and the 1861 Gloves Manufactory in the centre of Pécs. Afterwards, the forestry programme will begin with some sub-topics regarding the history of the area, such as glass-production in the forest or the industries in the small villages.

Main topics of the excursion:

Continuous cover forestry in beech stands in Mecsek Mountains

Transformation of even-aged structure based on the next generation

During the excursion the group can climb up to the look-out tower of Cigány-hill and enjoy a beautiful sight from the mountain.

The excursion will take place at the Forestry of Pécsvárad and will be guided by Atilla Nagy, manager of the Forestry Kálmán Partos and Attila Szily, forestry engineers of the local Forestry.

14. AUGUST 2015. EXCURSIONS

Drava coast

EXCURSION D: DRAVA PLAIN

This programme will begin with a pleasant boat trip on the river Dráva and will be followed by the forestry programme in the local Forestry.

Main topics of the excursion:

forest management in the Bükkhát forest reserve
managing pedunculate oak (*Quercus robur*) stands, natural regeneration methods

After this, the excursion continues with lunch, wine tasting and visiting the GERE winery at the Villány Mountains.

The excursion will take place at the Forestry of Sellye and will be guided by Tamás Molnár, manager of the Forestry, and Gábor Miklós, forestry engineer.

TERRAIN:

The competition terrain is a hilly area at the height of 200-380m, typical of the centre part of the Mecsek Mountains. Countless gullies, valley systems of various size and several depressions render the terrain versatile thus presenting a challenge for navigation. The vegetation also reflects the diverse nature of the terrain with areas of recent fellings, elderly beech forests, various deciduous forests, with some undergrowth. The versatile terrain has a dense path and road network.
